Heating details :
Dishwasher : No
TV : Yes

IceMaker : No
Oven : Yes
Gas stove : No
Heater : Yes
Washing machine : Yes
TV antenna : No
SAT-TV : No

Owner's Comments

A true owner's catamaran, designed for long-distance sailing. Designed by Marc Lombard, the Nautitech 542 captivates with its sailing qualities, balance, and performance, while offering the comfort and autonomy sought for extended cruising. HONEY is a particularly appealing unit: first owner, exclusively private use, and never offered for charter. It features a rare owner's layout, with the entire port hull dedicated to a vast master suite, including a sleeping area, lounge/office, ample storage, a separate head and shower. The starboard hull houses two double guest cabins with private heads, as well as an independent crew quarters with sanitary facilities and direct access from the deck. Outside, the spacious cockpit is organized around two helm stations on consoles, positioned to port and starboard, providing excellent visibility over the boat and sails while maintaining true helm sensations. Four electric winches simplify maneuvers, while relaxation areas are centered around a large extendable table and several seating options. Inside, the bright saloon, widely open to the cockpit, offers great conviviality, with an open-plan kitchen, dining/lounge area forward, and a proper chart table/indoor navigation station, which also serves as the third helm position. Generously equipped for autonomy, HONEY includes, among other features, 2 Volvo Penta 75 HP engines, an Onan 11 kW generator, a 240 L/h watermaker, 58,000 BTU air conditioning, solar panels, a 115 m² Code Zero, and a 4.26 m aluminum tender with a Suzuki 50 HP outboard. A seaworthy, high-performance, and remarkably versatile Nautitech 542 in a true Owner's configuration-ideal for setting off on long voyages with family, friends, or crew.
