## Miscellaneous

Comments :MERRY FISHER 10: By replacing the Merry Fisher 925, this unit brings a more modern look, superior performance as well as excellent seakeeping, increased interior volume and a modular cockpit. This concept patented by JEANNEAU gives the possibility to leave on land two banquettes-side boxes, in order to put the cockpit in fishing configuration; we then have a flawless freeboard height. They offer a very nice lounge with its small table. At the back of the cockpit, a gate allows you to reach the vast bathing beach. The access to the front is well secured, and the large sunbath, as well as the anchor bay that can receive an electric windlass, are significant
