Divers

Comments : UNIQUE model on the market. Specially equipped from the outset by the shipyard with a lifting and telescopic system for secure and easy access for a person with reduced mobility to the cockpit from any height of the quay and/or to the flybridge. This system is also designed to be submerged for swimming. A platform is also operational inside for access to the forward cabin from the saloon. Black water and gray water tanks present on board but not connected.

Integrated into the cockpit floor there is a hydraulically operated adjustable table. The gangway is also hydraulically powered.

The electrical circuit is 24 V, it includes two chargers. There is a safe box.

Only ONE owner since the 1st launch in 2003. The boat, the engines, the generator are regularly maintained. All the battery park : engines, service, bow thruster and generator is 2022. Mooring available on Cote d Azur.
