Owner's Comments

The alubat sailboat "UFO 395" is located in French Polynesia. This 12.77 -meter boat, built in 2006, has an aluminum shell, characteristic of the UFO range. It is equipped with a lifting drift, which makes it adapted to navigation in shallow waters.

Technical characteristics

The boat is powered by a Volvo Penta engine of 55 CV, which was regularly maintained. The rig was replaced in 2023. The sailboat has a full set of sails in good condition.

Equipment and autonomy

This sailboat is equipped with solar panels and a 4 kW generator, allowing sufficient energy production for on -board systems. A Dessalinizer is also present to produce drinking water from seawater.

For divers, the boat is equipped with a compressor to recharge the diving bottles.

Comfort and development

The interior includes two cabins, an equipped kitchen, and a large square. The boat offers a functional living space for long periods at sea.

Navigation preparation

The sailboat is sold with spare parts and tools. It is ready to navigate, whether in Polynesian waters or for oceanic crossings.

Limitation of liability : XBOAT presents the details of the boat as supplied to us by the owner.
