Electric stove : No
Heating details :
Dishwasher : Yes
TV : No

IceMaker : No
Oven : Yes
Gas stove : Yes
Heater : Yes
Washing machine : Yes
TV antenna : No
SAT-TV : No

Owner's Comments

Svag & Co is a 2024 Windelo 54 in the Yachting version, perfectly embodying the brand's DNA: eco-responsible, offering the pleasure of sailing on a modern, high-performance, and well-balanced catamaran. Since its launch, it has remained in the Mediterranean, with wintering periods ashore. The layout features a full owner's hull to port with a master cabin, office, dressing room, and large private bathroom, while the starboard hull includes two comfortable double cabins with a separate toilet and shower cabin. The nacelle space integrates Windelo's signature forward cockpit, a large U-shaped galley, a sunbathing area/quarter berth, and a dining space that can accommodate up to 10 people. Svag & Co has always received special attention from its owners in terms of maintenance. It also benefits from a particularly coherent energy system: flexible solar panels, a 400 W wind turbine, and an overall energy management designed for long stays at anchor while minimizing environmental impact. Very well equipped, it offers all the comfort one would expect: air conditioning, heating, watermaker, solar panels, wind turbine, and state-of-the-art multiplexing system refurbished in 2026. Today, driven by a new sailing project aboard a larger Windelo, its owners are emotionally seeking a new family ready to continue the story of this Windelo 54, designed for those who love sailing as much as fully living every moment at sea.
