Oven : Yes

Heating details :

Heater : Yes

TV : Yes

TV antenna : Yes

SAT-TV : No

IceMaker : Yes

Oven : Yes

Electric stove : Yes

SAT-TV : No

Divers

Comments : Beautiful first hand well maintained. In terms of performance, seaworthiness, comfort and construction, the V55 redefines the criteria for a sporty offshore. A true "thoroughbred" with the comfort and style of a superyacht, the resulting combination is exceptional. The V55 is probably one of the few boats in the world to combine the spectacular performance, style, elegance and quality of a large breed motor yacht. At the helm, you are surrounded by complete electronic equipment and complete instrumentation. Navigation is safe and easy thanks to the interface and radar, GPS, chartplotter and autopilot. The hydraulic steering of the Princess V55 is assisted. The gas and inverter controls are electronic (Volvo EDC) in the same way as offshore launches. The generous dimensions of the V55 are highlighted mainly in the cockpit. The owner and his team members have a generous space, the back of which is entirely reserved for sunbathing. Hydraulically lifted the sunbathing reveals a garage where an annex is stored. The cabinetry is made of cherry or mahogany with inlay of marquetry. The V55 seats six passengers in three independent cabins in the greatest comfort. In the middle of the boat are two cabins symmetrical to each other, each with two twin beds. Further forward is a large lounge that occupies the full width of the boat and features a complete kitchen hidden under a flap. In point, the owner has a reserved suite. The attention to detail and the level of equipment are reflected throughout the design of this boat, which redefines the criteria for a sporty offshore yacht in terms of performance, seaworthiness, comfort and construction. A "purebred" yacht with the comfort and style of a super yacht, the resulting combination is exceptional. To discover quickly.
