## Technical Details

J/92S by King Cat SA (J Composites 85)

The J/92S is a race-cruiser sailboat designed by the renowned naval architect Rod Johnstone and built by J Composites, a division of King Cat SA. This boat is renowned for its exceptional performance and on-board comfort, making it an ideal choice for demanding sailing enthusiasts.

Main Characteristics:

- Overall Length: 9.28 meters -
- Hull Length: 9.28 meters -
- Beam: 2.95 meters -
- Draft: 2.10 meters -
- Displacement: 3,500 kg -
- Main Sail Area: 42.5 m<sup>2</sup> -
- Jib Area: 25.5 m<sup>2</sup> -
- Spinnaker Area: 95 m<sup>2</sup> -
- Construction: Carbon fiber hull with Kevlar reinforcements -
- Mast: Carbon mast -
- Interior Layout: Spacious cabin with comfortable berths, an equipped galley, and a bathroom -
- Safety: Equipped with the latest safety technologies, including collision detection systems and distress beacons -

The J/92S is designed to offer an exceptional sailing experience, whether racing or cruising. Its light and rigid construction, combined with a high-performance sail plan, allows for optimal performance in various wind conditions. On-board comfort is also a strong point, with a well-thought-out interior layout and high-quality equipment.
