Owner's Comments

Guy COUACH Shipyard. Hull sandblasting November 2025. Well-maintained units, last major refit winter 2025, just out of the shipyard: new fixed fiber-resin swim platform, paints, hull polish, new sun awning and camping canopy, propeller shaft stuffing box, engine overhaul. TO BE VISITED BY APPOINTMENT. The Guy Couach 1601 is a luxury yacht built by the French shipyard Guy Couach in 1988. The Guy Couach 1601 measures approximately 16 meters in length (about 52 feet) and has a beam of around 4.5 meters. These dimensions make it a medium to large-sized yacht, offering space and comfort to its passengers. The hull design is elegant and modern, typical of yachts from this era. The hull is generally made of reinforced fiberglass, making it lightweight and durable.
