Technical Details

The Princess 330 Fly, designed by Marine Projects, is an elegant and high-performance cruiser, ideal for sailing enthusiasts seeking comfort and maneuverability. This 10-meter yacht offers an exceptional sailing experience thanks to its advanced technical features and refined design.

Main characteristics:

- Length overall: 10.36 meters -
- Beam: 3.45 meters -
- Draft: 0.95 meters -
- Displacement: 7,500 kg -
- Fuel tank: 600 liters -
- Freshwater tank: 200 liters -

Engine: The Princess 330 Fly is generally equipped with Volvo Penta or Yanmar diesel engines, offering a power of 2 x 225 hp. These engines provide a comfortable cruising speed and excellent maneuverability, allowing for impressive maximum speeds.

Interior layout: The interior of the Princess 330 Fly is designed to offer maximum comfort and space. It features two cabins, including a main cabin with a double bed and a guest cabin with bunk beds. The bathroom is equipped with a shower and electric toilets. The salon is spacious and bright, with a well-equipped kitchen.

Exterior layout: The upper deck of the Princess 330 Fly is a true open-air living space. It is equipped with a seating area with a bench and table, a protected helm station, and a space for swimmers at the stern. The flybridge offers a panoramic view of the horizon, perfect for sailing days and starlit evenings.

Electronics and navigation: The Princess 330 Fly is equipped with modern navigation systems, including a GPS, depth sounder, radar, and VHF. This equipment ensures safe and pleasant navigation, even in unknown waters.

The Princess 330 Fly from Marine Projects is an ideal choice for those seeking a versatile cruiser that offers both performance and comfort. Whether for family outings or longer trips, this yacht will meet all your expectations.
