Miscellaneous

Comments :The SB20 from the manufacturer Laser is a sport keelboat that can run in one design or in inter-series. Elected "Boat of the Year" in 2008.

It is a modern boat, simple, extremely stable and efficient thanks to the weight of the boat and the retractable keel. This boat is aimed at competitors as well as at individuals or clubs wishing to go for a ballad and a local regatta. Finally, the SB20 only requires a hold for launching and it can be towed with a car without an E license.

Be careful, the trailer does not roll on the road.
