## Owner's Comments

KSENIA 149 is a fast cruising catamaran, built in 2010 by the Ksenia-Yachts shipyard according to a plan by Erick Lerouge, available in a three-cabin version with a rotating carbon mast.

If you are looking for thrills while sailing and optimal comfort at anchor, this catamaran is made for you.

Its set of sails and its carbon mast will give you immense pleasure under sail.

It offers a large living space, a kitchen equipped with three induction burners, an electric oven, a freezer, a two-door refrigerator and a washing machine.

It has three double cabins, does not have an owner's cabin, two bathrooms and plenty of storage space.

With a very complete and operational navigation center, coupled with an autopilot and a backup pilot, your navigation will be done in complete safety.
