Owner's Comments

This WAUQUIEZ 47 PILOT SALOON travel sailboat offers great sailing pleasure thanks to the level of performance of its equipment and the comfort of its fittings.

A detailed description of the equipment is available on request.

This WAUQUIEZ 47 PILOT SALOON is a robust polyester sandwich construction, teak deck and cockpit.

The boat is rigged with 3 sails (mainsail, genoa and staysail) HYDRANET tri-radial cut, on furlers, and a GENNAKER on furler. Maneuvers are made easier with 3 ANDERSEN electric winches. All maneuvers are brought back to the cockpit.

The skipper has 2 steering wheels in the cockpit. The layout of the helm stations is safe. The cockpit can be completely closed with its awnings.

The navigation electronics are complete, duplicated at the chart table and in the cockpit. The boat has the necessary safety equipment for offshore navigation (AIS, iridium, GPS plotters, distress beacon, etc.)

The 110 HP engine ensures good cruising speed.

The boat has a high electricity production capacity with its shore power, its 4KW generator, a 12/220V - 2000 W converter, 4 solar panels (2 x 140W + 2 x 355W), 2 12/220V converters for computers , a second 100 A alternator attached to the engine?

The engine and GE are easily accessible under the saloon floor.

The accommodations consist of a saloon, and 3 double cabins, a kitchen area.

The saloon at the bottom of the companionway, the height of the floor of the WAUQUIEZ 47 PILOT SALOON allows you to maintain the outside view while remaining seated at the table.

The large owner's cabin is aft, with its dedicated bathroom, a bench seat and a desk. At the front a double cabin, a cabin with 2 bunk berths to starboard, and a bathroom to port. All berths are equipped with anti-roll canvases.

The kitchen area is located in the passageway leading to the aft cabin.

The numerous amenities of the WAUQUIEZ PILOT SALOON provide quality comfort: varnished woodwork, water maker, large fresh water capacity, stainless steel hot water tank, WEBASTO water heating, etc.

The annex is powered by an electric motor.

Do not hesitate to ask for a detailed description of the equipment.

Limitation of liability : XBOAT presents the details of the boat as supplied to us by the owner.
