Oven : No

Gas stove : Yes

Heater : No

Washing machine : No

TV antenna : No

SAT-TV : No

Owner's Comments

Exclusive information from the shipyard: this Saver 330 WA (Walk Around) features a completely new hull design, offering high-performance capabilities, both in terms of maximum achievable speed with the installed power, namely a pair of 300 HP outboard engines each, and exceptional navigation comfort. It provides ample outdoor spaces for daytime activities, with a large cockpit equipped with a sink, storage compartments below, and the option to add an additional refrigerator alongside the one in the cabin and a second cooktop. The stern is equipped with an "L"-shaped sofa with modern backrests and a table that, by simply replacing the supports, quickly transforms the dining or living area into a secondary sun lounge. The bow, on the other hand, offers a large fixed sun lounge with chaise lounge-style backrests. The console is proportionate to the size of the hull and offers space for the most modern and comprehensive onboard instrumentation. The space can be fully covered by a rigid T-Top, equipped with LED lights (including colored ones), providing protection for the driver and co-driver. A unique two-seater bench, with an elevated seat for standing driving, is provided for the driver. But it is inside that the 330 WA holds the biggest surprises, with a high cabin height, a spacious forward berth/dinette, and a second bed for guests towards the stern. The main kitchen area includes a refrigerator, a Corian worktop, a sink, two burners, and a standard microwave oven. The separate toilet compartment is also innovative, with a sliding door (less bulky) and separate WC and sink compartments divided by an inner door. This hull can easily reach speeds of 40 knots with its 600 horsepower at the stern. A WA that will accompany you in your excursions as well as in your short or long cruises with complete autonomy and the greatest comfort for you and your guests.
