## Technical Details

### SAVER 330 WA

#### General Description

I am proud to present my SAVER 330 WA, a boat designed with an entirely new hull, offering high-performance capabilities. This model is equipped with two 300 HP outboard engines, allowing it to reach impressive speeds while ensuring exceptional navigation comfort.

#### Outdoor Spaces

The SAVER 330 WA offers vast outdoor spaces for daytime activities. The spacious cockpit is equipped with a sink, storage compartments, and the possibility to add an additional refrigerator besides the one in the cabin. The stern features an L-shaped sofa with modern backrests and a table that quickly transforms into a secondary sunbed.

#### Comfort and Design

The bow offers a large fixed sunbed with chaise longue-style backrests. The console is proportionate to the size of the hull and provides space for the most modern and complete onboard instrumentation. The space can be entirely covered by a rigid T-Top, equipped with LED lights, offering protection for the driver and co-driver.

#### Spacious Interior

Inside, the SAVER 330 WA holds great surprises with a significant cabin height, a spacious forepeak berth/dinette, and a second bed for guests towards the stern. The main kitchen area includes a refrigerator, a Corian worktop, a sink, two burners, and a standard microwave oven.

#### Innovations

The separate toilet compartment is also innovative, with a sliding door and separate WC and sink compartments divided by an interior door. This hull can easily reach speeds of 40 knots with its 600 horsepower at the stern.

#### Why is this boat interesting to buy?

The SAVER 330 WA is interesting to buy for several reasons. First, its entirely new hull design offers high-performance capabilities in terms of speed and navigation comfort. Additionally, its vast outdoor spaces and spacious interior make it an ideal boat for excursions and cruises, both short and long. Finally, its modern design and innovative equipment ensure a unique and comfortable navigation experience for you and your guests.

#### Technical Specifications

- Length: 9.96 meters -
- Width: 3.00 meters -
- Weight: 5200 kg -
- Engines: 2 x 400 HP -
- Passenger Capacity: 12 -
