History of the Bénéteau Shipyard

The Bénéteau shipyard was founded in **1884** by Benjamin Bénéteau in Saint-Gilles-Croix-de-Vie, Vendée. Initially specialized in the construction of sailing trawlers for fishermen, the shipyard evolved to become a world leader in the construction of pleasure boats. Over the years, Bénéteau has managed to innovate and adapt to new technologies, notably with the introduction of polyester in the 1960s, which marked a decisive turning point for the shipyard.

In **1976**, Bénéteau presented the first sailboat in the "First" range at the Paris Boat Show, a success that opened the way to export and the diversification of boat models. The group continued to develop with the acquisition of several other shipyards, including CNB in **1992** and Jeanneau in **1995**, thus consolidating its position as a world leader in the leisure sector.
