Owner's Comments

WINDELO 50 Yachting for sale

WINDELO: the brand that's sailing ahead, modern, functional, 100% French, and eco-responsible! The latest generation is available today, built in 2023, JOULE has cruised the Antilles, the Bahamas, and the American East Coast, savoring life on board, anchorages, long stopovers, and the comfort of silent, autonomous sailing.

Never chartered and meticulously maintained by its owners, this WINDELO 50 in Yachting Version returned to Europe in December 2025 and is available for viewing in the South of France. Well-equipped and fully optimized for reliability, it features a 3-cabin layout with a port-side hull entirely dedicated to the Owner, including a large forward head, and 2 guest cabins on the starboard side. The saloon is bright and open to the sea, with its L-shaped galley and the brand's signature forward-facing helm station with large seating areas.

In terms of comfort, it's hard to beat: the Yachting version includes numerous standard features, such as high-end appliances, lacquered mast and boom, premium interior finishes, as well as optional extras like air conditioning, watermaker, satellite, Starlink, charger, inverter, full electronics suite, 2 water heaters, and optimized solar panels. The twin 20kW electric motors, paired with a 17.9kW generator, complete this top-tier setup.

For sailing, the experience is nothing short of thrilling: in addition to the gaff-rigged mainsail and self-tacking solent, JOULE is equipped with a gennaker, a code zero, and a parasailor! A true sailing pleasure with guaranteed on-board comfort! JOULE is available for viewing in Canet-en-Roussillon and will benefit from the builder's support during the handover to its new owner!
